-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 104, 106, 108, 110, 114. Further, on Figure 5, reference number 134 does not indicate which element it refers to.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3683

3. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Kato et al.

Re claims 1-20, Kato et al. discloses a damper comprising a pressure tube (13) forming a working chamber, a reservoir tube (40) disposed around said pressure tube, said reservoir tube forming a reservoir chamber (41) between said pressure tube and said reservoir tube, a base valve assembly (12) disposed between said working chamber and said reservoir chamber, said base valve assembly comprising, a valve body (42) defining a fluid passage, said valve body defining a first land, a second land disposed radially inward from said first land, and a support surface disposed between said first and second lands; and a valve disc disposed adjacent said valve body, said valve disc a clearance being formed between said abutting said first and second lands, valve disc and said support surface. (Figure 7)

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Keil et al. '436 and Keil et al. '372 teach dampers comprising a pressure tube forming a working chamber, and a reservoir tube disposed around the pressure tube.
